# A British brand est. 1976

---

We are a family owned British furniture company with a name inspired by Scandinavian design.

With Frövi, you'll always find innovative, distinctive furniture with signature designs, created through the best of British craftsmanship since 1976.

Every care is taken to ensure that all our products are manufactured to a very high standard, so you can be sure that when purchasing a piece of Frövi furniture you are purchasing a quality product.

From our design studio in Oxfordshire and our manufacturing facility in the Cotswolds; designs are created, constructed and delivered, enabling us to quickly adapt to evolving workplace demands.

Our showroom is in the heart of Clerkenwell, London – an exciting space to showcase our latest furniture collection, design trends and interior styles.

Frövi furniture is designed for commercial environments, and you can be confident that every piece will deliver on quality, strength and value, all supported by our 5-year warranty.

Whether you are an architect, designer, specifier or furniture dealership, we are confident that we can deliver the right products and services to complement your project.

## Behind the scenes

---

At Frövi we pride ourselves on creating forward thinking innovative products. That is why we have our own in-house designers that consistently exceed convention and deliver new concepts that create ripples throughout the industry. Based in Oxfordshire our designers produce increasingly impressive concepts, with a keen attention to detail and the use of innovative new materials.

Each design reflects the creative philosophy of our designers, with a passionate transition from thought to concept using traditional drawing methods and 3D computer aided design. The initial design is then quickly followed by prototyping and development, then the first commercially available designs make their way to our showroom.

The design process however, never truly ends as the team constantly question how our existing designs can be improved – as you will see throughout this specification guide.

There is something for every project within our new collection, designed to suit differing workspace requirements, installation timeframes and budgets.

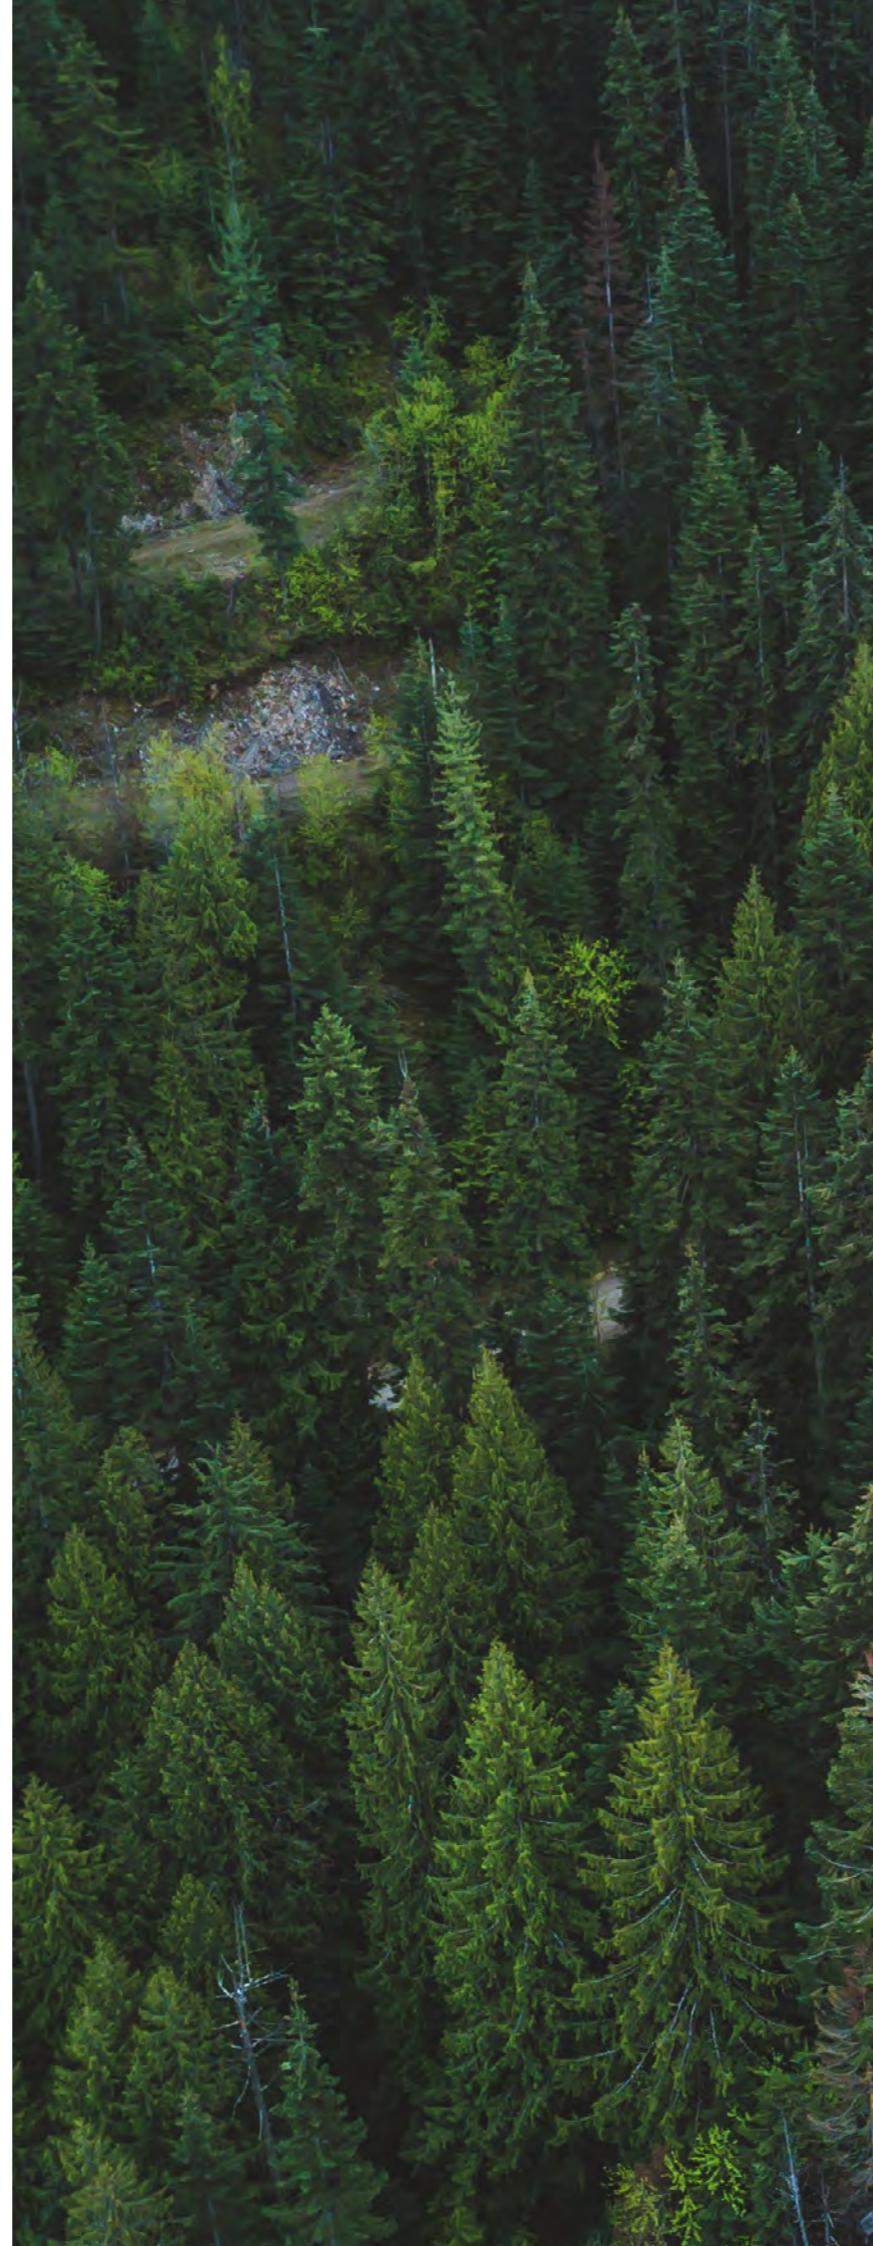

Explore the endless design possibilities.

# Design for today

As a furniture designer and manufacturer, we understand our operations have a far-reaching impact on the environment. This is something as individuals and as a business we take seriously.

We also know that with effort and hard work we can make a positive improvement on the life cycle of our furniture products, reducing waste and pollution through more sustainable material selection and more efficient manufacturing processes.

Frövi is committed to providing sustainable, environmentally responsible products, including Environmental Product Declarations (EPDs) and manufacturing and material transparency.

## Frövi Environmental Accreditations & Processes

### ISO ACCREDITATION

Frövi is a registered ISO 9001:2015 and ISO 14001:2015 company. These quality assurance and environmental management accreditations give customers and clients the peace of mind in all Frövi products.

### FSC

Frövi is a FSC®-certified company. Forest Stewardship Council® is a global, not-for-profit organisation dedicated to the promotion of responsible forest management worldwide.

### FISP

We are registered with the FISP regulatory body, which is an independently certified sustainability programme specifically designed for the Furniture Industry supply chain. FISP identifies best practise to drive continual improvement of member's social and environmental impacts, securing sustainable financial success.

### SCS INDOOR ADVANTAGE GOLD

Frövi is proud to announce that SCS Global Services has issued its Indoor Advantage™ Gold certification for indoor air quality across our entire collection of products. The products have been tested for low Volatile Organic Compound (VOC) emissions in various categories including open plan and private office workstations, seating and school classroom parameters.

## Unique materials & finishes

At Frovi, our innovative finishes set us apart.

Our focus for sustainable and responsible material sourcing, has resulted in seating made from sustainable cork, tabletops made from recycled fridge freezer plastic, shelving made from recycled steel rebar and our forward-thinking Bamboo range.

Whether you are looking for a statement piece, or furniture that seamlessly blends into your workspace, with an almost endless catalogue of fabric choices and colour finishes, your chosen Frovi furniture will perfectly complement its environment.

# bamboo®

\* NEW \*

With its minimalistic design, Bamboo offers a contemporary way of zoning and organising spaces. Created as one of our most environmentally friendly products, we have used the most eco-friendly and sustainable materials. Bamboo is totally customisable and reconfigurable.

## FEATURES

Bamboo is a carbon negative material and the use of bamboo products can help achieve a higher certification level for LEED and BREEAM

Configurable for any workspace

Easy and quick to assemble, supplied with tools for quick install

100% recycled ocean plastic connectors

Framework available in any of our RAL colours

All shelves, cupboards & lockers made from side-pressed bamboo

Planter inserts made from a blend of mycelium from mushrooms and hemp

Felt panel for pinboard use, made from a blend of 70% recycled and 30% virgin PET

Packaging is made from 100% recyclable cardboard, made from 80% recycled material

Height adjustable feet

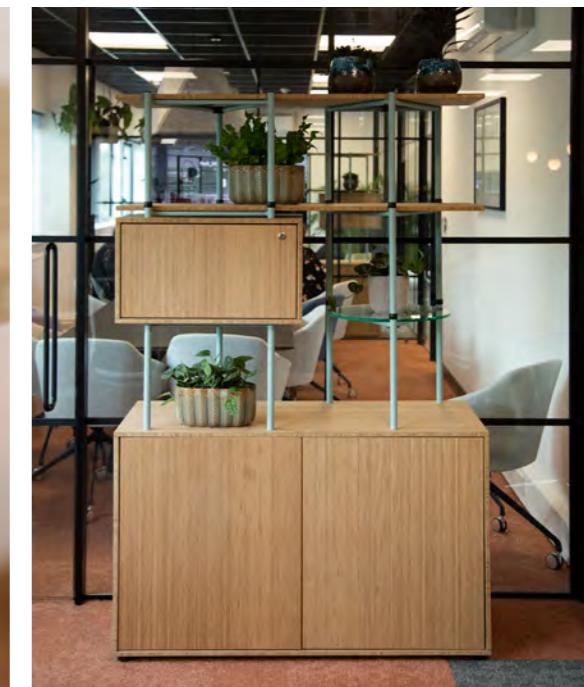

Mobile table for agile working

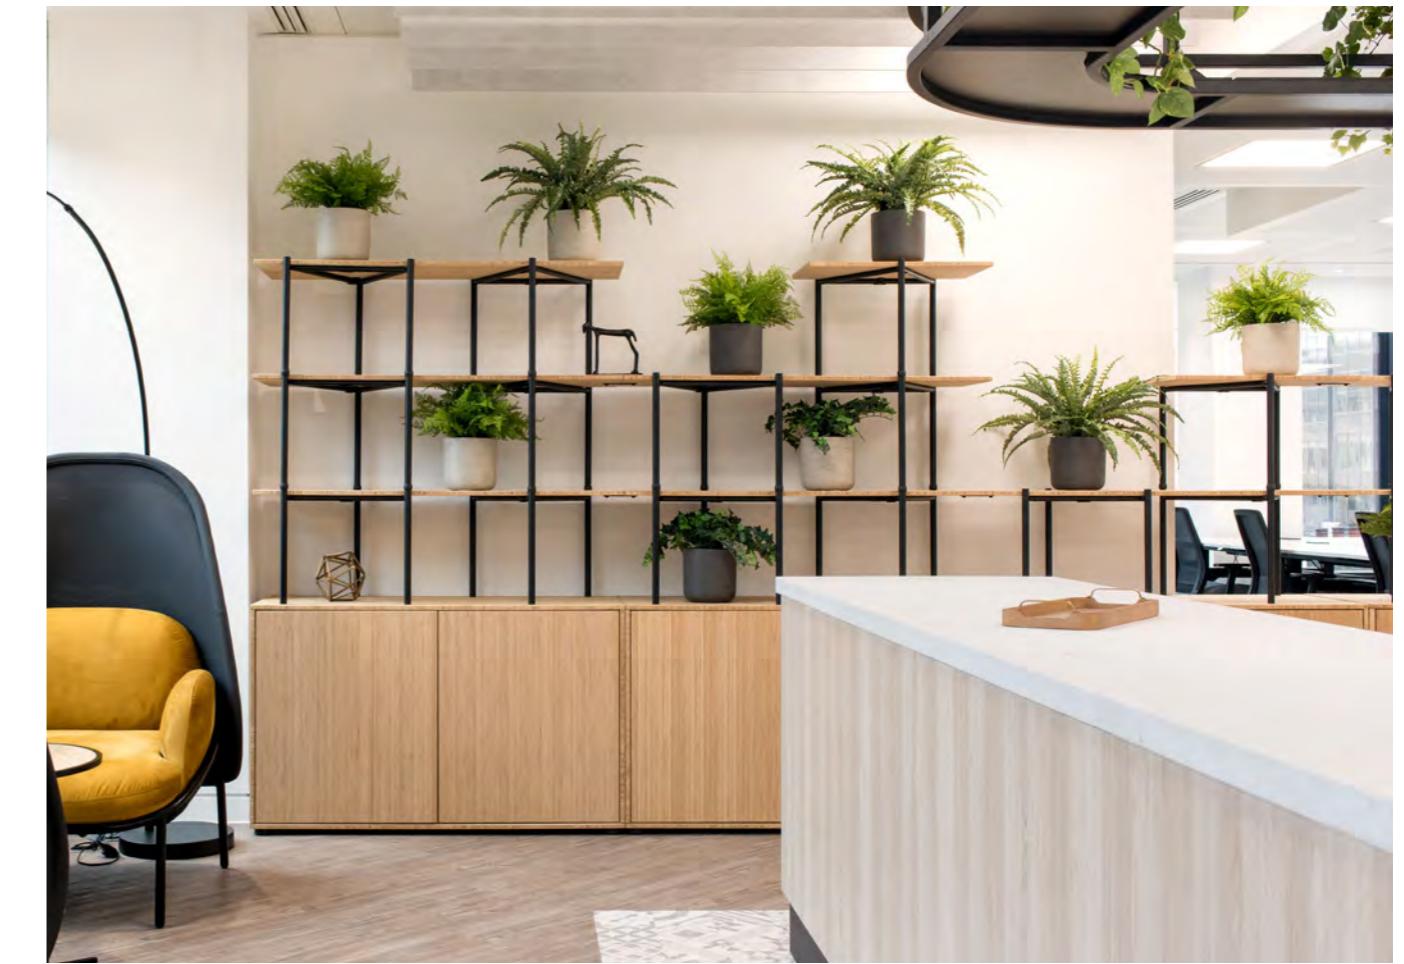

Lamp to fit any configuration

Scan to watch videos  
and find out more

**bamboo®**

# environmentally conscious

Our Bamboo range has been created by our environmentally conscious in-house design team, where possible we have opted to use the most eco-friendly and low impact materials. This year, we've taken further steps towards a more sustainable future. It starts with the launch of our Bamboo collection, a range that uses environmentally conscious materials and processes. All our shelves, cupboards, storage boxes and tabletops in the range are made from bamboo. This material is widely known for being extremely sustainable hard wood alternative - it has a negative carbon footprint!

**bamboo uses  
1/3 of the water  
consumption to  
grow than oak**

## sustainable buildings

The use of bamboo products can help achieve a higher certification level for LEED and BREEAM. It can also help achieve more points towards the building becoming WELL-aligned.

## one of the fastest growing plants

It only takes a year to grow back after it's been harvested. Some species grow more than 3 feet (1 metre) each day.

**bamboo uses  
no pesticides  
or chemical  
fertilisers**

## clean air

Bamboo releases 30% more oxygen than hardwoods and it absorbs 5 times more carbon dioxide than standard trees.

## low energy powder coating

Our specially designed powder coatings are cured at lower oven temperatures, which reduces energy usage and waste generation, lowering our overall carbon footprint.

## anti-bacterial

Bamboo has the ability to withstand and kill bacteria. It is also very easy to clean.

# RELIC PROJECT TABLE

Designed for flexible co-working spaces, the Relic Project Table is an exciting evolution in the Relic design family. The height of the Relic Project Table can be electronically adjusted at the simple flick of a switch to create the ideal workstation for any task. Using market-leading lifting columns and discreetly hidden power cables, the Relic Project Table has the ability to adjust with ease from desk height to poseur height without compromising it's beautiful sleek style.

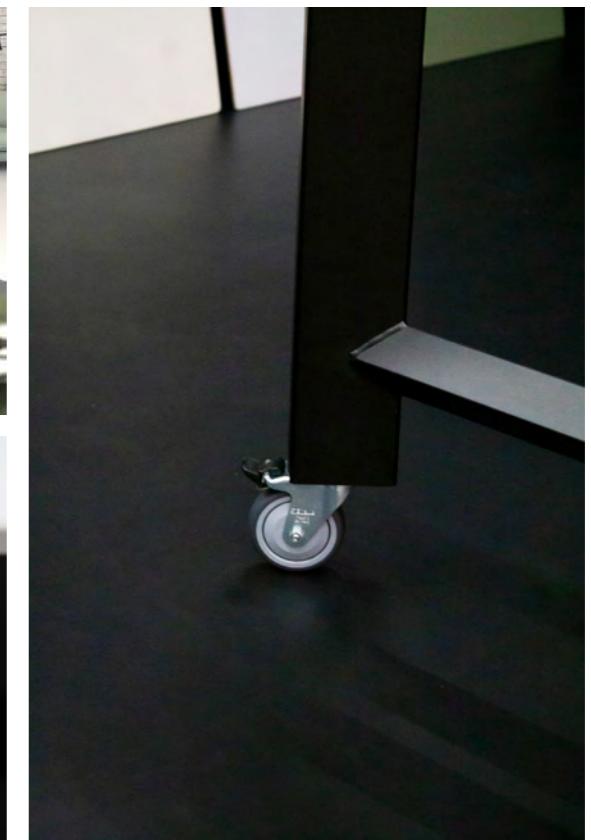

## FEATURES

- Height adjustable electric table
- Smart technology with app compatibility
- Ideal for collaboration & flexible workspaces
- Available in 4 sizes
- Optional castors for mobility
- Choose from a wide range of colours
- Large capacity power bank with ability to extend
- Optional Task Light integration

# RELIC AT WORK

Relic at Work is a co-working system derived from our current Relic design. The unique wedge shape tops are designed to allow a generous work space with a compact footprint. Adjustment between a collaborative work space and private working can be achieved with the use of the additional, magnetically attached accessories. Adding a canopy and lighting will soften the environment, with an option to also specify biophilia

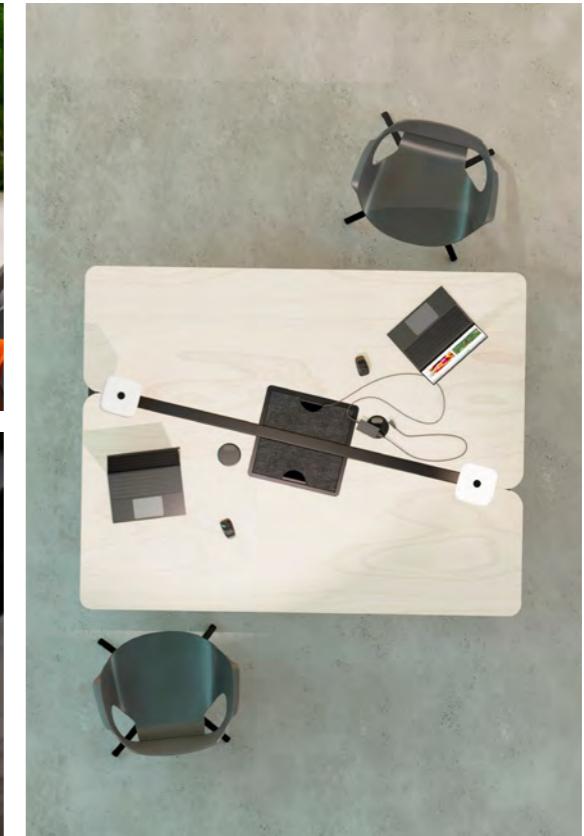

## FEATURES

- Multi-functional workspace for co-working or personal use
- Optional castors for mobility
- Large capacity power bank with 8 UK power sockets (4 per user). Ability to extend capacity
- Offset seating positions
- Overhead acoustic canopy
- Hanging trays for storage or plants
- Wedge-shaped tops to maximise space and minimise footprint
- Magnetic accessories for re-positioning

# RELIC

This flexible range is a natural choice for any co-working environment. Choose mobile table variations to create collaborative spaces for agile working and social exchange. A fusion of rustic detail and industrial inspiration, the extensive range of sizes and finishes enables Relic to be used in multiple applications across every scheme.

## FEATURES

- Wide range of sizes and finishes
- Power and data port options
- Fully integrated cable management
- Inset frame allows additional seating at either end
- Castors available for mobility
- Complementary benches, stools and storage
- Fast assembly

**STEPS TO SPECIFY**

Follow our guide and customise our products to suit your space

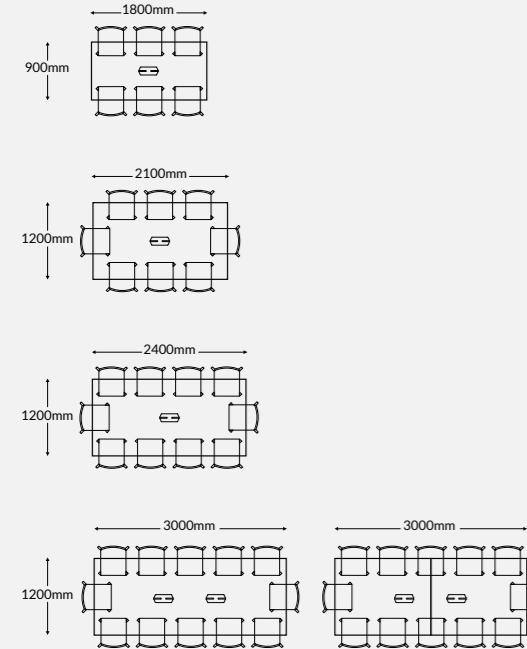

- 1
- 2
- 3
- 4
- 5
- 6

Select Frame: Standard or Poseur, with or without Castors

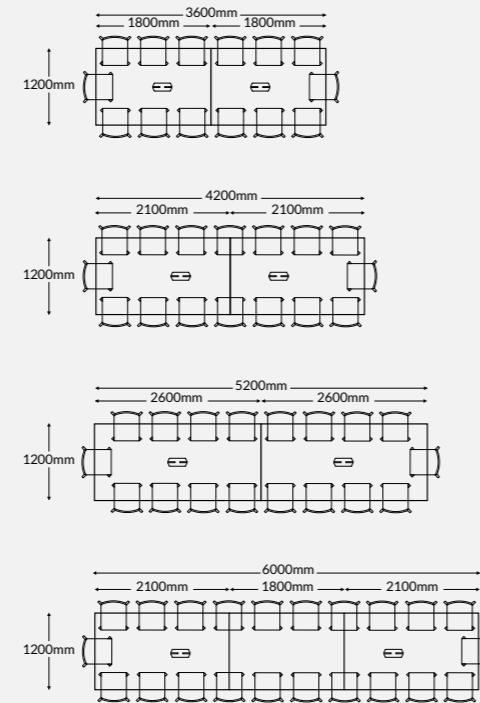

- 1
- 2
- 3
- 4
- 5
- 6

Select Size:

Example sizes with chair configurations below,  
see page 60 for full range of sizes.

Diagrams show a 500mm chair placed around the tables as seating capacity indication only. Capacity can be increased with the use of benches. Tables over 3000 mm are more than one-piece tops, seams as shown below.

- 6

Select Power: Powered or Non-powered

Relic Tables can be specified with or without integrated power.

Tables with Power are supplied with one or more steel lift-out power flaps that match the selected frame colour.

The cable tray and power modules are White as standard but are available in Black on request.

**Standard power configuration for Relic Tables with Power**

For power variations, the amount of power cut-outs per table varies depending on the length. Power modules per power cut-out are available with one of the options below.

**Table Length**

1600mm to 2400mm

1

3000mm to 6300mm

2 - For two or more power cut-outs, please specify each power module.

**Option A**

4x UK Power & 2x Twin USB Charge  
(1x Type-C & 1x Type-A USB Charge)

**Option B**

4x UK Power, 1x Twin USB Charge (1x Type-C & 1x Type-A), 1x CAT6 & 1x HDMI

**Option C**

4x UK Power, 1x Twin USB Charge (1x Type-C & 1x Type-A) & 2x CAT6

**Option D**

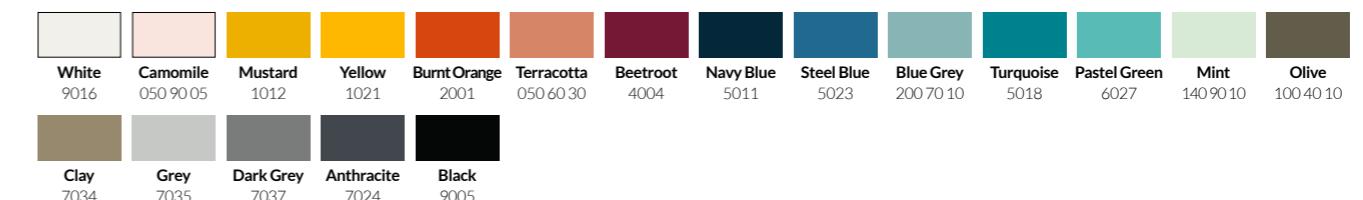

No power modules. Cable tray only for customers own power.

# TROST

Inspired by the Swedish word for ‘comforting’, the Trost chair has been designed to envelope and wrap you in its soft, reassuring form. Trost’s choice of materials have been carefully considered to create maximum comfort with minimum impact on the built environment.

## FEATURES

- A statement chair with soft, reassuring form
- Designed with moulded foam for maximum comfort
- High and low versions available

We have a limited list of approved fabrics that are suitable for the contours of the Trost Chair. Please refer to the Frövi sales office for further advice or the fabric band charts for more detail.

# JIG SOFA

The Jig Sofa is part of an extensive family of products, built-to-last and particularly well-suited to high traffic areas. Available as both high and low, the high-backs promote semi-private areas for meetings or allow for focused working. The ability to contrast the button detail allows you to add complementary colours to the scheme.

## FEATURES

- Solid oak frame suitable for high traffic areas
- Deep foam, webbed seat for extra comfort
- Extensive range of fabrics with option of contrasting buttons
- High and low-back versions available

# JIG MODULAR

This modular range has been designed to create a multitude of comfortable, relaxed and practical layouts. The dual height options provide both the intimacy of the high-back and the openness of the low-back in a single configuration.

## FEATURES

- High and low-back versions available
- Solid oak frame suitable for high traffic areas
- Deep foam, webbed seat for extra comfort
- Extensive range of fabrics with option of contrasting buttons
- Linking clips supplied as standard

# HOME BOOTH

More than a traditional booth, Home offers mobility and flexibility. Each piece can stand alone and be used in its own right, allowing users to organise their space into task related areas. Adding castors to Home allows users to manoeuvre them when and where required, still encouraging collaboration and teamwork whilst maintaining social distancing.

## FEATURES

- Available with castor option for mobility
- Side cushions removable for additional seat width
- Mobile Media Wall with concealed cable management
- Mobile Media Wall offer acoustic properties
- Extensive range of accessories including integrated table and media package
- Webbed seat for maximum comfort
- Black frame finish

For the full Home collection, see page 130.

**STEPS TO SPECIFY**

Follow our guide and customise our products to suit your space

1 2 3

**Select Configuration:** Piece together the Home High Sofa and add the Mobile Media Wall to create a Booth setup.  
Example configuration shown below

**Home High Sofa** Two Seater  
width 1820, depth 820, height 1420, seat height 445 mm

**Home** Mobile Media Wall  
width 1520, depth 475, height 1440-1740 mm

# MONO GIANT TABLE

With exceptional seating capacity, the Mono Giant Table has been designed to accommodate integrated cable management. It is perfectly weighted for optimal stability.

## FEATURES

- Large seating capacity
- Optional power with integrated cable management
- Base available in a wide range of finishes
- Height adjustable levelling feet, designed to raise the base to neatly cover a standard floorbox

Seating configuration example  
(shown with Grow Stools)

\* NEW \*

With its minimalistic design, Bamboo offers a contemporary way of zoning and organising spaces. Created as one of our most environmentally friendly products, we have used the most eco-friendly and sustainable materials. Bamboo is totally customisable and reconfigurable.

## FEATURES

Bamboo is a carbon negative material and the use of bamboo products can help achieve a higher certification level for LEED and BREEAM

Configurable for any workspace

Easy and quick to assemble, supplied with tools for quick install

100% recycled ocean plastic connectors

Framework available in any of our RAL colours

All shelves, cupboards & lockers made from side-pressed bamboo

Planter inserts made from a blend of mycelium from mushrooms and hemp

Felt panel for pinboard use, made from a blend of 70% recycled and 30% virgin PET

Packaging is made from 100% recyclable cardboard, made from 80% recycled material

Height adjustable feet

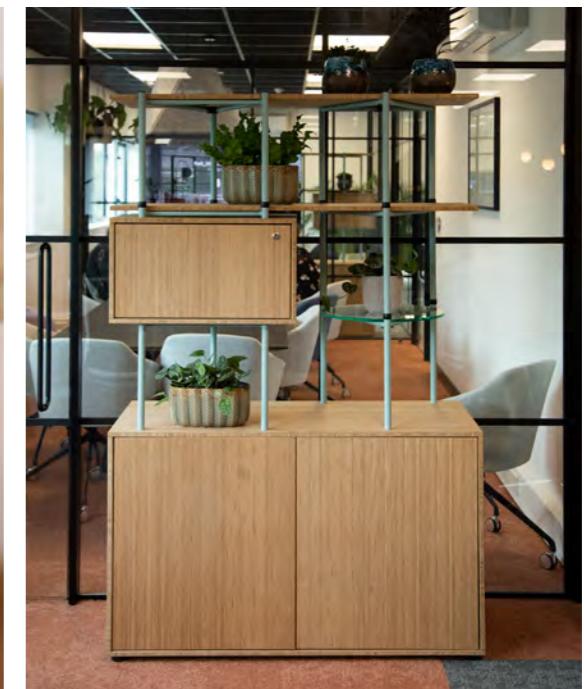

Mobile table for agile working

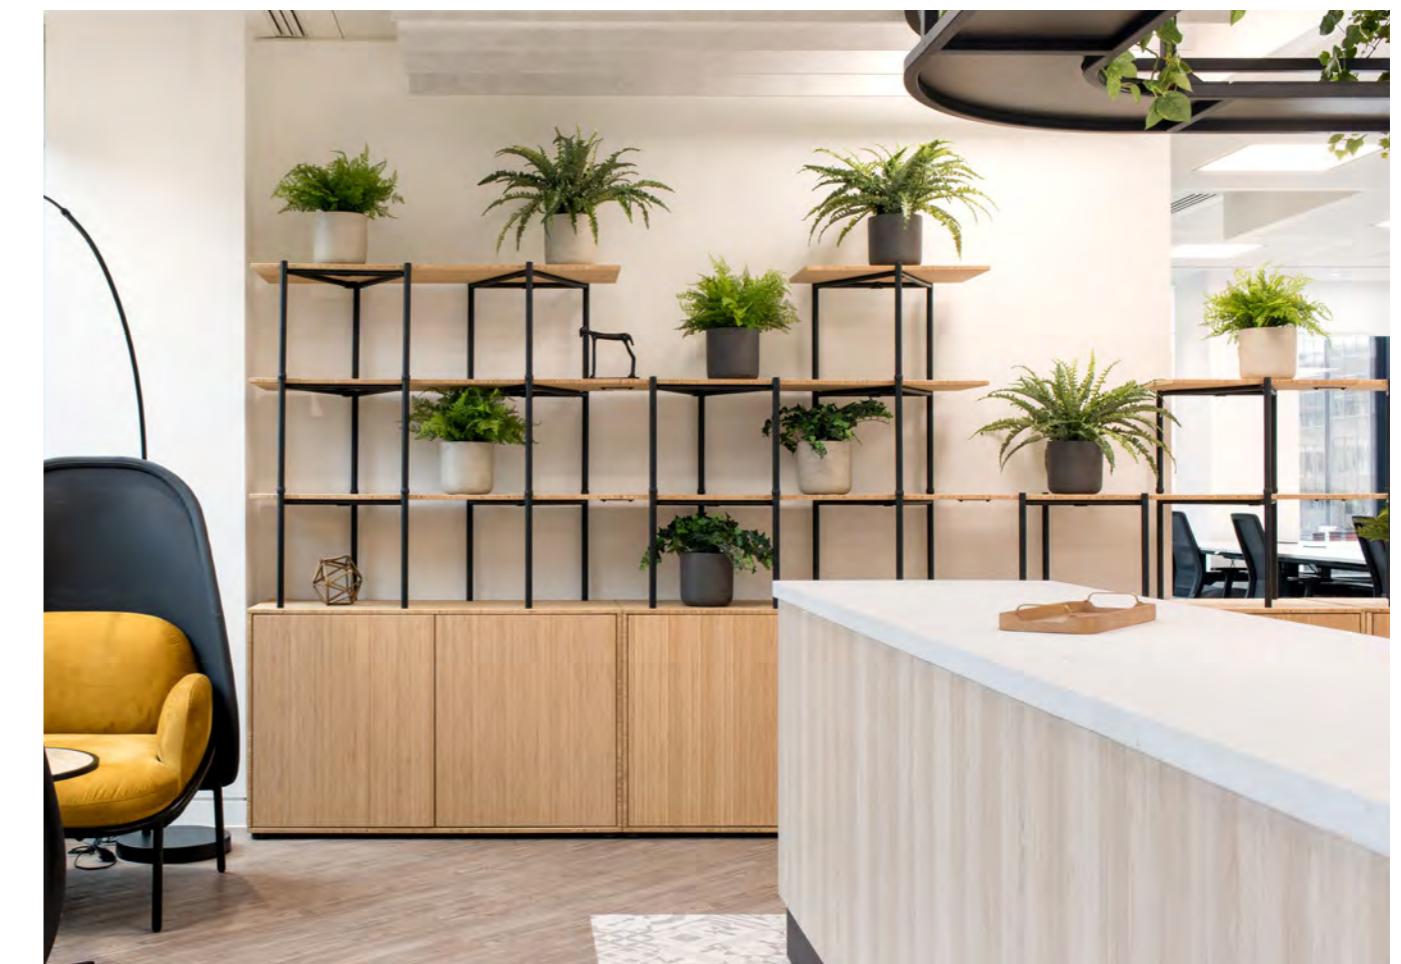

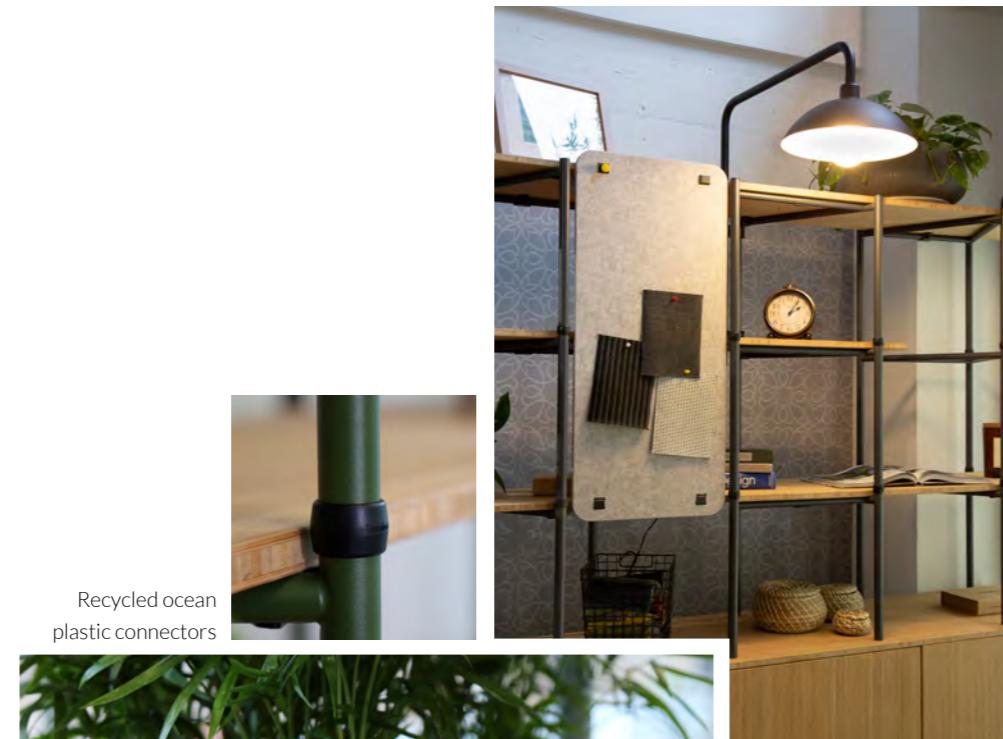

Lamp to fit any configuration

Scan to watch videos  
and find out more

CONFIGURE

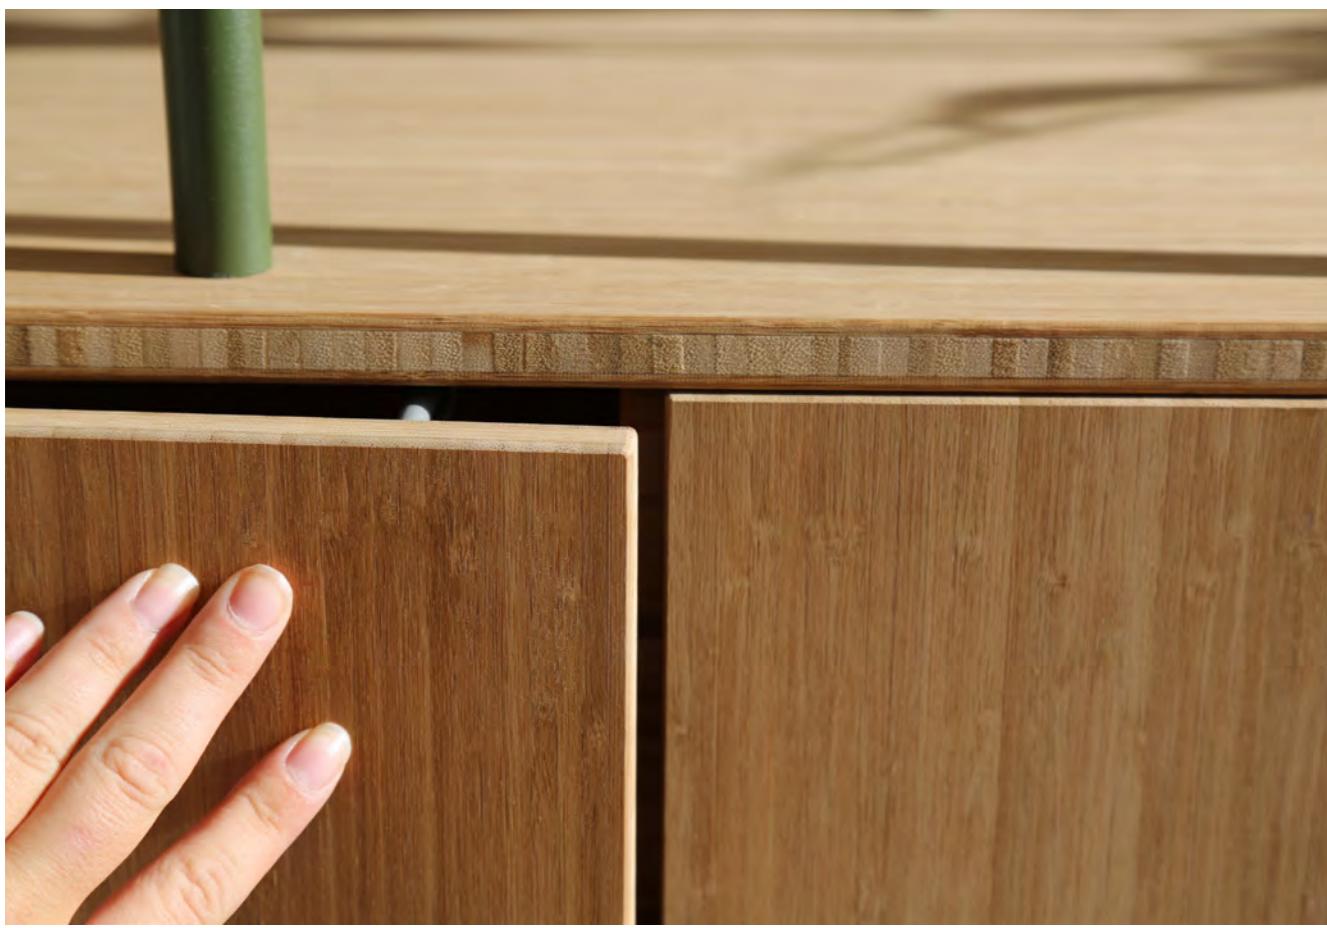

CONFIGURE YOUR OWN DESIGN ONLINE

Use our online configurator at [bamboo.frovi.co.uk](http://bamboo.frovi.co.uk) to help you customise our presets or specify your own bespoke Bamboo configuration.

# bamboo®

## environmentally conscious

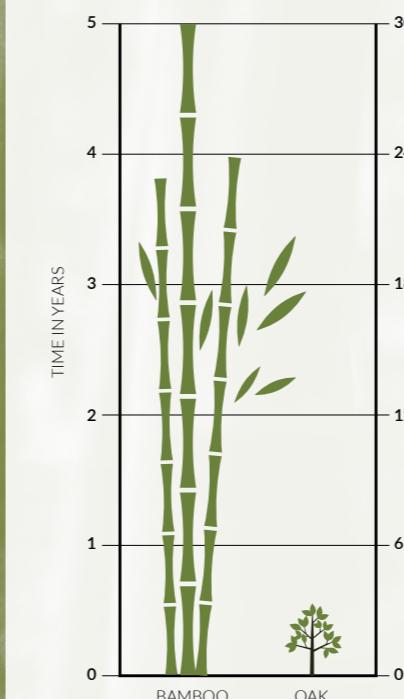

Our Bamboo range has been created by our environmentally conscious in-house design team, where possible we have opted to use the most eco-friendly and low impact materials. This year, we've taken further steps towards a more sustainable future. It starts with the launch of our Bamboo collection, a range that uses environmentally conscious materials and processes. All our shelves, cupboards, storage boxes and tabletops in the range are made from bamboo. This material is widely known for being extremely sustainable hard wood alternative - it has a negative carbon footprint!

### bamboo uses 1/3 of the water consumption to grow than oak

### one of the fastest growing plants

It only takes a year to grow back after it's been harvested. Some species grow more than 3 feet (1 metre) each day.

### sustainable buildings

The use of bamboo products can help achieve a higher certification level for LEED and BREEAM. It can also help achieve more points towards the building becoming WELL-aligned.

### bamboo uses no pesticides or chemical fertilisers

Bamboo releases 30% more oxygen than hardwoods and it absorbs 5 times more carbon dioxide than standard trees.

### low energy powder coating

Our specially designed powder coatings are cured at lower oven temperatures, which reduces energy usage and waste generation, lowering our overall carbon footprint.

### anti-bacterial

Bamboo has the ability to withstand and kill bacteria. It is also very easy to clean.

## Frövi is a UK brand, sold through distributors throughout the UK and beyond

### IMPACT ON THE ENVIRONMENT

We believe that environmental and ethical values should lie at the core of our vision for the future. Protecting the environment is paramount for both us and future generations. Every product we produce has an environmental impact but at Frövi we are constantly striving to reduce the impact of this as far as possible. To attain these goals we constantly review best practice to ensure your Frövi product is produced to the highest standard of sustainability. These goals include resource and waste management to reduce our carbon footprint through reduction of energy consumption, recycling and minimising our waste to landfill.

#### ISO

Frövi is a registered ISO 9001:2015 and ISO 14001:2015 company.

#### FISP

Frövi understands the necessity of working with all of our suppliers to ensure they share the same aims and visions of the company. We recognise the importance of the UK Timber regulations which prohibit the sale of illegally sourced or harvested timber and/or timber products entering the UK. These regulations work to protect natural habitats in unstable regions around the world.

Frövi is a certified Furniture Industry Sustainability Programme (FISP) member.

#### FSC

Forest Stewardship Council® (FSC®) is a global, not-for-profit organisation dedicated to the promotion of responsible forest management worldwide.

FSC has developed a unique system of forest certification and product labelling, helping consumers identify timber and products from responsibly managed forests. FSC's system is backed by a range of environmental and social organisations, major companies and trade unions.

More FSC products mean that more FSC certified forests are being managed for the long-term well-being of people and the planet.

FSC runs a global forest certification system with two key components: Forest Management & Chain of Custody.

This system allows consumers to identify, purchase and use wood, paper and other forest products produced from well-managed forests, recycled materials and other controlled sources. Rigorous controls ensure that timber from these FSC certified sources can be verified along the FSC chain of custody before it reaches the consumer.

Further details about our FSC® certified products are available on request.

**Note:** For Chain of Custody certification to be achieved it must be requested at time of order.

Frövi is a FSC®-certified company. Certification Registration Code: SA-COC-005644. Licence Code: FSC® C134751

The mark of responsible forestry

### QUALITY, STANDARDS AND TESTING

Quality is vital in all Frövi products. Frövi is committed to ever increasing product quality. Regular quality control checks coupled with ongoing rigorous research and development keeps Frövi at the forefront of the industry. Many Frövi products are tested to international standard (ISO, BSEN) at recognised test facilities, such as FIRA, SATRA and CATAS, thus giving our customers peace of mind that the product they are purchasing has been rigorously tested in laboratory conditions to ensure its safety and suitability for use in the contract environment.

Certificates, where relevant, are available on request.

### DESIGN REGISTRATION

All Frövi designed products are registered with the Intellectual Property Office. This Government registration is in place to prevent people copying or stealing our designs. The design registration covers the look of Frövi designs including the appearance, physical shape, configuration (or how different parts of a design are arranged together) and decoration.

By registering our designs, Frövi is protected against anyone copying them and we have the right to prevent others using our designs for up to 25 years. Frövi can take legal action against any design infringement and/or design copying.

Further details and registration number are available on request.

### SCS INDOOR ADVANTAGE GOLD

All Frövi products are certified SCS Indoor Advantage Gold meaning that we meet the most stringent and internationally accepted standards for Indoor Air Quality. This ensures that no harmful pollutants are released into the air when using our products and further demonstrates our commitment to an environment that is safe, healthy, and sustainable. All relevant product testing certificates are available upon request.

### EPD

Frövi powder coating has an Environmental Product Declaration certificate. EPD is an independent and industry recognised body that verifies products which meet environmental and sustainable standards.

Frövi is the only major global supplier of powder coated products to have the quality of its products third-party verified by an Environmental Product Declaration (EPD).

We have adopted this strategy to provide many sustainability benefits compared to other powder coating methods, including reduced energy usage and reduced waste generation.

Our specially designed powder coatings can be cured at lower oven temperatures making them suitable for a variety of substrates. This leads to reduced energy usage and a lower carbon footprint. It is a hard-wearing coating for exterior architecture and furniture. This cures in 12 minutes at 170 degrees.

Frövi powder coating meets the tough weathering requirements of leading industry specifications such as; Qualicoat class 2, GSB Master, AAMA2604, BS EN 12206, and matches the mechanical performance advantages (flexibility) of Qualicoat class 1 standard durable systems.

# INFORMATION

**Our passion for quality  
is infused into each piece  
of Frövi furniture**

## 5 YEAR WARRANTY

All Frövi products carry a five year structural warranty. Any defects in material specified by the customer such as fabrics, laminates and veneers which are not manufactured by Frövi, will be subject to the original manufacturer's warranty terms & conditions.

All laminate finishes, surfaces and painted products are covered by the original manufacturer's warranties.

Any damage caused by accident, misuse, abuse, neglect and standard wear & tear, is not covered by this warranty. Any issues arising from the defective and/or incorrect assembly of Frövi products where the furniture was supplied but not assembled by Frövi trained fitters will not be deemed as warrantable and therefore will be chargeable in full.

Frövi reserves the right to decide whether to repair and/or replace any product/s that are deemed to be covered by their warranty and the decision by Frövi is final.

Regular care and maintenance of all furniture items by the customer is an essential condition of the Frövi warranty. It should be noted that all screws, nuts, bolts etc. must be checked on a regular basis. Damage, fracture or other failure of Frövi furniture due to lack of maintenance is not warrantable and will be charged according to Frövi Terms & Conditions of Sale.

A full detailed copy of the Frövi Terms & Conditions of Sale are available on request.

Application for the copyright owner's permission to reproduce any part of this publication should be addressed to Frövi.

Where colour and finish samples are shown within this document limitations in the reprographics process mean absolute colour accuracy cannot be guaranteed. Where colour matching is critical, a sample of the material can be provided on request.

**Frövi reserves the right to alter specification and designs without prior notice.**

## WOOD SEATING & TABLES

Frövi cannot guarantee an exact match of any wood items, and any variation in colour, texture or grain is not considered a defect due to the natural nature of the product. Matching of colours between different batches is also not guaranteed, as wood finishes will age with time and exposure to sun light. Wooden furniture is exclusively designed for indoor use and should not be exposed to increased humidity.

Frövi cannot guarantee pattern-matching on table tops of 2 pieces or more, made from wood-grain effect or patterned laminates due to limitations on laminate sheet sizes.

Each table top section is manufactured from individual sheets of laminate, which can vary in colour, blemishes and other inconsistencies.

# We have moved!

We are upgrading and moving to our new, contemporary showroom on Sycamore Street from the **15th June 2022**. We can't wait to show you around our exciting new space, speak to our sales team to find out more or to book an appointment.

**5 Sycamore Street,  
Sycamore House, Clerkenwell,  
London ECIY OSG**
